

1. Two-photon analysis of calcium signals in T lymphocytes of intact lamina propria from human intestine.
Tutsch E, Griesemer D, Schwarz A, Stallmach A, Hoth M.
Eur J Immunol. 2004 Dec;34(12):3477-84.
2. Ca²⁺ signaling in identified T-lymphocytes from human intestinal mucosa. Relation to hyporeactivity, proliferation, and inflammatory bowel disease.
Schwarz A, Tutsch E, Ludwig B, Schwarz EC, Stallmach A, Hoth M.
J Biol Chem. 2004 Feb 13;279(7):5641-7.
